

Suganth S

Chennai, India | +91 8870436377 | suganth3924@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

A motivated Electronics and Communication Engineering student with strong interests in Python programming, Machine Learning, and Data Science/Analytics. Skilled in problem-solving, algorithm development, and data handling, with additional hands-on experience in embedded systems & IoT, and circuit design. Eager to apply both software and hardware expertise to solve real-world problems and drive innovation.

EDUCATION

Saveetha Engineering College, Chennai, India

July 2023 – Expected 2027

- B.E. in Electronics and Communication Engineering - CGPA: 8.1/10

Kendriya Vidyalaya CECRI Campus, Karaikudi, India

April 2011 – March 2023

- XII – 75.4% (Mar 2023)
- X – 82.2% (Mar 2021)

PROJECT EXPERIENCE

RFID-Based Attendance System (Arduino, RFID, C)

- Developed an automated attendance system using RFID cards and microcontrollers.
- Implemented software logic for real-time attendance tracking and database management.
- Tested and validated the system for accuracy and reliability in a classroom setup.

Game Recommendation System (Python, API, Data Filtering)

- Developed a Python program that recommends video games based on user-selected genre.
- Integrated API requests to fetch real-time game data, including genre, platform, and ratings.
- Implemented filtering and random selection algorithms to provide personalized game suggestions.

IoT-Based Garbage Monitoring System

- Developed a smart garbage monitoring system using Arduino and ultrasonic sensors to detect bin fill levels.
- Implemented real-time notifications to alert authorities when bins are full.
- Gained hands-on experience interfacing sensors, Arduino programming, and basic IoT communication.

INTERNSHIP EXPERIENCE

National Small Industries Corporation (NSIC)

Chennai, Jul 2024 – Aug 2024

Embedded Systems Trainees

- Learned fundamentals of embedded systems and real-time applications.
- Designed/tested circuits and programmed microcontrollers for automation.

Asictron Control System

Chennai, Jan 2025 – Feb 2025

Implant Trainee

- Worked on embedded hardware integration and IoT-based systems.
- Gained experience in sensor/actuator interfacing and prototyping.

SKILLS & INTERESTS

Programming: Python, DBMS, RDBMS, Java

Hardware & EDA Tools: ESP32, Arduino, Sensors, Cadence Virtuoso, NCLaunch, Proteus

Soft Skills: Problem Solving, Critical Thinking, Leadership, Teamwork, Communication, Hands-on Prototyping.

Areas of Interest: Python & Data Structures/Algorithms | Machine Learning & Data Science/Analyst | Electronics.

ACHIEVEMENTS

- Won 2nd prize in the college mini project competition, demonstrating practical skills and innovation.
- Participated in various college-level technical symposiums, showcasing interest in emerging technologies.
- Attended technical workshops to gain additional knowledge and hands-on experience.
- Participated in the DIR-V quiz competition, gaining exposure to industry-relevant concepts and problem-solving.

CERTIFICATIONS

- Microsoft Python Development Professional Certificate – Microsoft (Coursera), 2026
- CS50's Introduction to Programming with Python (CS50P) – HarvardX (Harvard University), 2025
- CS50's Introduction to Databases with SQL – HarvardX (Harvard University), 2025
- AINNOVATION 2025: Microsoft Azure Learning Challenge - Introduction to Microsoft Azure, 2025
- NPTel - Cloud Computing, Jan-Apr 2024 | Industrial Internet of Things (IIoT), Jan-Apr 2025
